

**COOPERATIVE AGREEMENT between
Paul H. Thompson Library of
Fayetteville Technical Community College
&
Sampson-Livermore Library of The University of North Carolina at Pembroke**

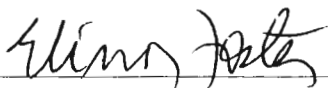

The following refers to library lending services offered by the above three institutions:

1. Persons from FTCC will be governed by the guidelines set forth in the Sampson-Livermore Library's Policies and Procedures Manual. UNCP affiliates at FTCC will be governed by the Paul H. Thompson Library guidelines and procedures. These guidelines refer to charges assessed for overdue and lost books.
2. Persons from UNCP may with current student identification borrow materials from FTCC and will follow guidelines established by both institutions.
3. Persons from the community college will be granted library privileges and may borrow circulating books from the Sampson-Livermore Library, upon the presentation of current student identification.
4. The general borrowing period for books may vary by library. It is the responsibility of the borrower to remain knowledgeable of due dates.
5. The borrower's privileges will be suspended if materials are lost or not returned or if there are any unpaid fines or fees.
6. The borrower will be responsible for returning all books directly and safely to the lending library. However, if the borrower returns the materials to the home library, the home library will be responsible for mailing the materials back to the lending library.
7. The lending and borrowing libraries reserve the right to restrict the loaning of materials that are in high demand or that are difficult to replace.

Interlibrary Loan Agreement

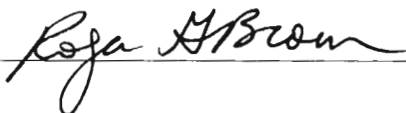

Persons from these institutions will be able to request items through Interlibrary Loan and will be governed by the ILL policies and procedures established by both the lending and borrowing libraries.

This agreement may be terminated at any time by either party with written notice from that party.
The termination shall be in effect when the library not requesting termination is notified.

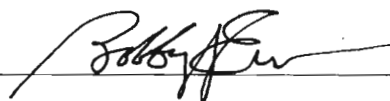

Dr. Elinor Foster
University Librarian
Sampson-Livermore Library
