VII. Reports from Subcommittees

A. Enrollment Management

Shilpa Regan updated the Committee on the status of work on updating catalog information regarding AP, CLEP, and IB exam information (see appendices of this meeting's agenda). The information in these appendices will be sent to UNCP Department Chairs for their review and comment prior to continuing and completing this work in the Fall 2022 semester.

B. Academic Support Services

Robert Arndt referred Committee members to the report in the appendix of this meeting's agenda summarizing recent statistics collected by his Subcommittee, some extensive renovations in the library's computer lab, and the solicitation of items for the Campus Author's Bibliography.

C. Curriculum

Paul Flowers referred Committee members to the listing of numerous proposals in Appendices B and C of this meeting's agenda regarding curriculum proposals that are classified as 'minor' and thus not requiring approval by this Committee. He also noted that he had provided the CAS Dean's Office with some suggestions on how the curriculum approval process might be revised to hopefully avoid the common scenario of very few proposals being processed in the fall semesters and increasingly burdensome numbers of proposals being processed in the spring.

D. General Education

Joseph Van Hassel reported his Subcommittee concluded its work during their March meeting and would not be meeting in April.
