4. Unfinished Business

- a. Qualtrics vs. Survey Monkey: Review team voted, but the sample size was very small. Reason to migrate: Survey Monkey is \$30,000 less expensive.
Reasons to maintain: Material is difficult to export from Qualtrics to Survey Monkey and several of the features cannot be duplicated. An implicit cost of research time and research quality must be factored into the discussion.

Proposal: Do not migrate to Survey Monkey at this time.
