** Must average 2.0 QPA overall in required & elective courses in Biology and Environmental Science. See catalog for other QPA requirements. You are NOT required to earn a “C” or better

in each of your biology/environmental science courses, but a "C" or better would certainly make you more desirable to future employers. You could receive a "D" in a biology/environmental science course and conceivably have sufficiently high grades in your other biology/environmental science courses to bring your overall QPA up to 2.0 or higher.

Attention: For students who entered under, or switched to the 2011-2012 or later catalogs, the new Quality Enhancement Writing Plan will apply—see catalog pages 33-34. You are required to take two writing enriched (WE) courses, and one writing in the discipline (WD) course totaling 9 hours to meet graduation requirements.

WE courses need not be biology or science courses, and some of these may count as your general education requirements. WD courses will need to be biology or science writing courses. Biology will have a WD course available in Spring 2013. Course sections must be labeled WE or WD in BraveWeb or they will not fulfill this requirement.
