BACHELOR OF SCIENCE IN NURSING

Bachelor of Science in Nursing Degree (BSN) for RNs: The RN/BSN program is offered by the Southeastern North Carolina Nursing Consortium which is a cooperative effort between Fayetteville State University (FSU) and The University of North Carolina at Pembroke (UNCP). The program is designed for registered nurses who wish to earn the baccalaureate nursing degree. Faculty are appointed to either parent institution but teach across campuses based on their areas of expertise and clinical preparation. Students may select either institution as each confers the BSN degree.

The program of 124 credit hours is designed for registered nurses from Associate Degree or hospital diploma nursing programs. The program assists registered nurses to integrate principles and theories of general education and nursing into the nursing process to provide care to clients and their families, and to groups in diverse health care settings.

The program prepares the professional nurse generalist to perform six interrelated roles: Advocate, Clinician, Collaborator/Coordinator, Educator, Leader, and Researcher. Building on competencies attained by the registered nurse, the program extends the student's knowledge, skills, attitudes, and scope of practice of the student for expanded career opportunities, enhances personal and professional satisfaction, and develops a foundation for further study in graduate nursing education.

The program holds membership in the National League for Nursing (NLN) and the American Association of Colleges of Nursing (AACN). The program is accredited by the Commission on Collegiate Nursing Education (CCNE) and the National League for Nursing Accrediting Commission.

The philosophical view of human beings in relation to their environment, health, professional nursing practice, education, and teaching/learning provide the foundation for the program.

PURPOSES

The purposes of this nursing program for registered nurses reflect the tripartite roles of teaching, research, and community service articulated in the mission of both UNCP and FSU. The purposes of the nursing program are to:

1. Promote and advance the accessibility, availability, and quality of professional nursing education and practice for registered nurses of southeastern North Carolina,
2. Provide the opportunity for upward mobility for registered nurses,
3. Prepare generalist nurses capable of delivering quality professional nursing care for individuals and groups in diverse settings with knowledge and skills commensurate with the highest standards of clinical practice,
4. Provide instruction that incorporates multicultural content and learning experiences that enable the nurse to deliver nursing care to underserved populations with a focus on rural clients, ethnic groups, the elderly, the poor, and women.
5. Provide a foundation for further study as a specialist in nursing at the graduate level.
6. Influence the course and progress of health care delivery in southeastern North Carolina by preparing professional nurses to participate in health care policy.
7. Enhance the effectiveness of nurses collectively by promoting professional identification, commitment, and collegiality.

ADMISSION REQUIREMENTS

All applicants seeking admission to the Baccalaureate Nursing program must meet the following requirements:

1. Be admitted to one of the consortium institutions (FSU or UNCP) by meeting all general requirements for admission as a regular degree seeking student.
2. Present evidence of having earned an Associate Degree in Nursing or a Hospital Diploma in nursing, from an accredited program.
3. Have a current and unrestricted North Carolina nursing license.
4. Complete all general education (core) and support courses satisfactorily (grade of C or better) before enrolling in the first nursing course.

ACADEMIC STANDARDS FOR PROGRESSION

The following requirements must be met in order to progress in the nursing program:

1. Maintain an unrestricted, current RN license.
2. Maintain a cumulative grade point average of C (2.0) or higher.
3. Achieve a grade of C or higher in each nursing course before proceeding to the next nursing course.
4. Receive a P (pass) grade on the laboratory or clinical component of each nursing course that has either laboratory or clinical experience. A grade of F (fail) in any laboratory or clinical component will result in an F for the course.
5. Only one nursing course may be repeated one time during progression through the nursing program.
6. Maintain current CPR certification, TB (or x-ray) testing, evidence of Hepatitis B vaccination, and malpractice insurance while enrolled in the nursing program.
7. Adhere to all policies of the universities, nursing program, and clinical agencies.

VALIDATION OF PREVIOUS NURSING EDUCATION

Validation of previous nursing education is achieved by successful completion of Nursing 300 and Nursing 320.
