The purpose of the Department of Sociology and Criminal Justice is to provide students with classroom and real-life experiences designed to stimulate critical thought about the social environment and to prepare students for meaningful participation in society.

The Department offers both a major and an academic concentration in Sociology and a major in Criminal Justice. In addition, minors are available in Sociology, Criminal Justice, Substance Abuse, Medical Sociology, International Sociology, Gender Studies, and Community Development.

The Department places emphasis on applied sociology and criminal justice. Many courses within the department allow students to test classroom learning through real-life experience (field-work placement) in the community. Such experiences enhance students' employment opportunities following graduation.

The Department of Sociology and Criminal Justice strongly recommends that prospective majors, minors, and those developing specialty concentrations consult the Department Chair.

### BACCALAUREATE DEGREE PROGRAMS in SOCIOLOGY and CRIMINAL JUSTICE

#### BACHELOR of ARTS in SOCIOLOGY

Sociologists seek to understand and study the social world and how human beings come to think and act as they do. Sociology majors develop an understanding of how society is developed out of intricate patterns of human social organization, learn to create and use scientific tools of analysis, and practice the application of scientific knowledge to the analysis of social problems and the transformation of society. Students have available many opportunities to apply the theories and research methods of sociology through classroom-based activities and community-based experiential learning and internships as they explore career alternatives. Sociology is a liberal arts major that prepares students for a wide variety of career fields.

The Sociology B.A. degree program is flexible. Beyond the core of required courses, students choose among a wide variety of options and can use these options to meet personal or career interests by developing a concentration or carefully selecting individual courses. Students can also opt to continue exploring Sociology by completing an academic concentration or one or more of the minors focused on sociological specializations available within the Department: Community Development; International Sociology; or Medical Sociology or an Interdisciplinary Minor supported by Sociology: Gender Studies or Substance Abuse.

### BACHELOR OF ARTS IN CRIMINAL JUSTICE\*

The purpose of the Criminal Justice Program is to provide students with a thorough understanding of the social organization and administration of the criminal justice system. Courses are offered in theories of crime and delinquency, law enforcement, the courts, corrections, and administration. A criminal justice agency internship is required for most students, but an additional criminal justice course may be substituted for students with extensive prior work experience related to criminal justice.

The Criminal Justice major is fully articulated with many North Carolina community college criminal justice associate's degree programs and accepts equivalent transfer credits under negotiated articulation agreements for transfer students entering UNCP within five years of earning an associate's degree. Transfer students must earn at least 19 hours in UNCP criminal justice courses to earn the Criminal Justice degree from UNCP.
