Submit the original hard copy to the DoIT main office (Carter Hall)

Use this form to create, modify or delete Banner security classes. This form may only be completed and signed by the Data Manager responsible for the class. Objects must exist within the scope of common user objects or the specific functional domain of the Data Manager. Specify the Banner objects to add or remove from the class below, along with the type of access. Use a separate form for each class. Use multiple forms for a single class if necessary.
