The Greekster

VOLUME 1, ISSUE 4

JANUARY 2009

It's Not Easy Being Greek!

Multi-tasking

As a member of fraternity or sorority you must learn to multi-task in order to live to your fullest potential. There will be times when you will have to get things done for your chapter, finish your homework assignments and just live your life. Well our Greeks here at UNCP, know how to juggle it all. They currently hold a higher GPA than the University average. As well as the fraternity average and sorority average individually are higher than the Men's and Women's University average. All of the chapters pride themselves on scholarship by striving for academic excellence. And this definitely shows statistically.

Fraternity and Sorority Housing

There are always incentives to being Greek, and here in our Pembroke Community there is talk of Fraternity/Sorority Housing. There are some apartment complexes who are offering this accommodation, yet they are not on campus grounds. Being that they are not on campus housing, it will depend on the chapter's national headquarters to approve the housing. Therefore UNCP is not part of the off-campus fraternity sorority housing.

Exciting News:

The new Director of Greek Life, Chris Blackburn will start his first day February 2, 2009. We are all excited to have him join our team.
