Using Academic Search Complete

Access: Go to the Library's homepage at www.uncp.edu/library/. Click **Electronic Resources**. Click **Database Title**. Click the letter **A** and you will see a list of databases. Click **Academic Search Complete**.

Advanced Search: The advanced search opens automatically in all Ebsco databases (see image below). You can combine keywords by using **and** (e.g., **school violence and prevention**). You can interchange different words with similar meaning (such as 'college' and 'university') using **or** (e.g., **college or university**). You can also truncate words with an asterisk (e.g., **prevent*** = **prevented**, **preventing**, **prevention**, and **prevents**).

[Advanced Search](#) | [Visual Search](#) | [Search History/Alerts](#) | [Preferences »](#)

The advanced search allows you to combine and experiment with various sets of keywords. For example, if you were researching the 'effects of alcohol or drugs on college students,' then you would use the first two **Find** boxes to enter the main keywords (**college or university** and **drug abuse or alcohol abuse**) and the third **Find** box to experiment with different groups of people, such as **Greek** organizations (see image below), or **athletes**, **women**, or **African Americans**, or search for articles about possible alcohol or drug-related issues such as **family relations**, **falling grades**, **HIV**, or **sex**, etc. You can add additional search boxes by clicking the **Add Row** link.
