Week July 13 - 17																									
Week July 20 - 24																									

Course Descriptions

Arts and Crafts

NEW! Draw, Paint & Sketch – Explore various techniques of painting and drawing through the use of charcoal, watercolor and pencil.

Cool Cooking – No baking required! In this class you will create fun snacks, desserts, and drinks that will taste great and keep your kitchen cool all summer! You will also make a keepsake cook book.

NEW! Make It, Take It – Attention creative kids! If you love to make things, this class is for you! Put your creative talents to work as you make daily crafts to take home.

NEW! Up, Up and Away! - How does that thing fly? Explore the concept of flight through the study of air pressures, lifts, pushes and wind tunnels. We'll make airplanes, gliders and helicopters.

NEW! Pipe Cleaner Creations – Pipe cleaners are soft to touch and with a little imagination you can make just about anything. This kid craft describes how to make a pipe cleaner people, animals or even birds.

Sand Art – Design, make and paint decorative items like cards, pictures, envelopes, gift wraps, and decorative bottles ... all with sand.

NEW! Monster Art – Look under your bed and check in the closet before entering this class! Find those silly monsters and bring them out to play. Come join in on the laughter and sharing of monster stories and use the the inspiration of monsters to produce a variety of art projects. Beware! You might just turn into one!

Math & Games of Strategy

NEW! At Your Service: Kid Money-makers—Want to make money but you're too young for the job? Come get your own business started! Learn how to make money by providing a service and selling it to potential customers. Develop a business plan, prepare potential flyers and design your business cards.

Edible Math – Whoever knew you could EAT math? Come find out how delicious it can be! And sharpen your math skills while you have fun.

Basics of Math - Is your student struggling with addition and subtraction or other fundamental concepts of math? This workshop will focus on the basics of early math, including sorting and classifying, addition and subtraction, number families, word problems, money skills, telling time, measurements, and beginning fractions.

Money Sense - A collection of fun, hands-on activities will teach you about basic economics. Learn about money, being a consumer, wants versus needs, goods and services, supply and demand, and other basic economic concepts. You can bank on having fun while you learn!

Science

NEW! Let's Get Messy - This session is full of messy projects and activities! Make sand projects and experience soapy activities. Have fun finger painting with Jell-O and making glitter sprinkle bottles. There are many surprises this week, but all activities are guaranteed to get you messy!

NEW! A Bugs World – Are you a fan of creepy, crawly things? If you are, come along as we go on a “Bug Hunt” and learn all about different bugs and insects. Children will become “Big Experts” through activities, crafts and games!

Pets and Vets – Caring for pets, making a bird feeder, learning about endangered species, and discovering the duties of a vet are some of the educational, creative, and fun activities in this unique class. Learn animal behavior facts, tricks, and tips on grooming, feeding, and becoming a responsible pet owner. Develop sensitivity and skills so that you may make a difference in protecting animals and pursuing a possible career.

NEW! Make Believe– This week is the time to let your imaginations run loose. Don't worry about how things look, just see everything through a child's eye and have lots of fun with make believe.

Under the Sea - Some of your favorite characters live in the ocean, Sponge Bob and Patrick, the Little Mermaid, and Nemo to name a few. Discover how creatures from sponges to starfish to sharks survive under water. You'll learn about many life forms and how they differ from things that live on land. On Thursday you will visit the Ocean Life Center to get a close-up look at some of the plants and animals that live in the ocean.

NEW! Around the World in Five Days – Have you ever wondered what it's like in other parts of the world? Well, if you choose this class you will find out! Come explore some different parts of the world with us. You are guaranteed an exciting journey through five countries in five days. No passport needed, just eagerness and excitement!

NEW! Weird Science—This is your chance to investigate some of the stranger aspects of science. Become a science detective as you identify mystery powders, make invisible ink, and learn why helium balloons explode in cars. All of this and more await you in Weird Science!

Your Insides Out - This is an introduction to human anatomy that is all about fun. Learn about the human body and how it works. Discover the functions of the organs in your body. Find out how your bones are connected, what your skin does for you and test your five senses through a series of fun games, activities and experiments.

Yoyos, Tops and Other Spinners – Explore exciting scientific concepts using fun and popular toys force, motion, rotation and much more will be explored as we observe and create spinning objects.

NEW! Sandwich Bag Science - Did you ever think you could have fun with a sandwich bag? Sandwich bags aren't just for peanut butter and jelly anymore. Come find out how an empty sandwich bag can be jampacked with science. Learn how to conduct dozens of hands-on experiments and projects related to the physical, earth, and life science. The sandwich bag possibilities are endless.

Social Studies

Fifty Nifty United States - Join this adventure through the 50 United States of America. Explore state capitals, silly laws, fun facts, state mottos, birds, flags, and exciting histories. You will get into the geography of the USA as you taste many of the specialties of different regions.

North Carolina Heritage – Without leaving the classroom, we will travel through history through stories, crafts and other activities to learn about N.C.

NEW! All About Me—Describe yourself in a few words. Now, turn those words into a creation. Come with us and learn how to emphasize your identity through fabulous works of art. Unleash your inner creativity and enjoy the final products.

Reading

NEW! Poetry Is In The Air – Poetry lives in your footsteps, in the color of your eyes, and on top of the highest mountain. Look around you. Where do you think poetry lives? Enjoy playing around with your own words and before you know it, you'll become a poet, too.

Read! Write! Publish! – Stimulate the love of reading and writing by using the writing process to become a young author. We will try writing comic strips, newspaper articles, sports announcements, and more. We'll explore some different types of book designs, illustration, and ways of “publishing” the finished product.

NEW! Firefighters - All kids love bright red fire engines. Each day the students will look at the varied disciplines of today's fire service. Kids will enjoy decorating fire chief badges, which they can then wear on their shirts.

NEW! Pirates—Have you ever thought was it would be like to be a pirate? This class will allow you to dress like a pirate and find a buried treasure.

Athletics

Eat Smart and Exercise - What makes kids healthy and strong? Discover the basics of nutritious eating and learn how exercise makes your body healthy. You'll learn what the food groups are and how to include all of them in what you eat. You'll also get to experience different types of exercise, including sports, dancing and playing! Track what you eat throughout the week and discover what types of exercising is fun for you.

NEW! Survivor at UNCP – Do you like the hit TV reality show Survivor? Can you compete in challenges and obstacles as a member of a tribe? Do you like adventure and stepping into the unknown? If you do, then this camp is for you. Come join us at Survivor at UNCP, where you'll become part of a tribe and compete in challenges, play games, hunt bugs, and learn to survive on the campus of UNCP.

Summer Fun – Learn about and play exciting games in the sun. Activities will include badminton, kickball, bocce, capture the flag and more.

games! We will explore all sorts of games and sports, including an Olympic Day. Be a sport!

NEW! Beach Activities – Who doesn't love a day at the beach? These ideas will help you have fun at the beach, or create a beach day in your own back yard. Don't forget to get out the beach towels and make some lemonade. The kids will feel like they are at the beach even if the ocean or lake is miles away.
