Competency 1: Demonstrate Ethical and Professional Behavior	1. Make ethical decisions by applying the standards of the NASW Code of Ethics, relevant laws and regulations, models for ethical decision-making, ethical conduct of research, and additional codes of ethics as appropriate to context. 2. Use reflection and self-regulation to manage personal values and	80% of students will demonstrate competence inclusive of 2 measures  <b>Measure 1:</b> BSW Competency Presentations  <b>Method:</b> The BSW Competency Presentations are assessed by the BSW seminar instructor. The instructor will evaluate students in 31 behaviors related to competency using rubric with a scale of 1-3 as follows: 3= Student's presentation demonstrates a strongly developed ability to describe and apply the behavior and related competency; 2= Student's presentation demonstrates an emerging ability to describe and apply the behavior and related competency; and 1= Student's presentation demonstrates a need to further grow in ability to describe and apply the behavior and related competency.	<b>BSW Competency 1 Presentation (CP's)</b> =95% of students scored 80% or higher  <b>Field Supervisor Final Performance Evaluation (FE's) of Competency 1</b> =99% of students scored 3 or higher  <b>CP's+FE's=x</b> <b>x/2= aggregate</b> 95+99=194 194/2=97%  <b>Competency 1 aggregate</b> =97%	During the 2023-2024 AY students have consistently achieved outcomes above the benchmark for each competency.  The Program Director and the BSW Program Committee will continue to oversee these outcomes.  During the 2024-25 AY the BSW Program Director and BSW Program Committee will transition the program and curriculum to the CSWE 2022 EPAS. The entire curriculum

## INSTRUCTIONS FOR COMPLETING THE ASSESSMENT RESULTS MATRIX

- 1.) Goals and Objectives: The number of goals and objectives must be manageable. Eliminate any goals and objectives that have not been assessed in the last three years or specify when the goal will be assessed in the future.
- 2.) Assessment Method: Address what assessment methods were used. How are the methods connected to the goals and objectives? For each objective, there needs to be a statement as to what method was used to assess this objective. Have both direct and indirect methods been used? A direct assessment method is used to assess directly what a student has learned, for example by means of a test. An indirect assessment method is used to ask the student what he/she thinks they have learned, for example by means of a survey. (A copy of all assessment instruments (test, matrix/rubric) should be included in the Assessment Report).
- 3.) Assessment Results: What did you find as a result of the assessment process? What benchmarks have you developed to determine whether or not student performance on the objectives is acceptable? (The Assessment Report should include both raw data and an analysis of the data).
- 4.) Use of Assessment Results: What changes will you make to your program as a result of the assessment? **Changes made should be shown to have a direct connection to the assessment results.**
